

# Women in Earth and Environmental Sciences Professional Development Workshop

**Saturday February 16, 2019 or Sunday February 17, 2019  
at North Carolina A&T State University**

Sponsored by the National Science Foundation &  
Colorado State University

**Who:** College women interested in the earth systems and environmental sciences from Universities in the Carolinas.

**What:** A one-day professional development workshop, where you will meet peers with similar interests across the Carolinas, learn more about careers in earth systems and environmental sciences and expand your professional network. There is no charge to students so that we can be sure that there are no barriers to participation.

**Where:** The workshop will be held on North Carolina A&T State University main campus in Greensboro, NC. We will provide transportation between your university and the workshop as well as meals.

**Why:** Society needs women in science and technology - we are a group of professors and local scientists who want to make sure women succeed in their pursuit of earth systems and environmental sciences careers. This program is open to students at North Carolina A&T State University, University of North Carolina Chapel Hill, University of North Carolina Charlotte, and North Carolina State University.

**How:** Complete this online application to participate in a PROGRESS workshop:
