

Research Experience for Undergraduates Chemistry and Biochemistry

Department of Chemistry, East Carolina University
Greenville, NC 27858-4353

May 18 – July 27, 2019

Program Overview

- Funded by National Science Foundation
- 10 week paid program - \$5,000 stipend, housing allowance, meals and travel support
- Research focus: Experimental and computational research in chemistry and biochemistry
- Faculty mentors: faculty members in Department of Chemistry

Qualifications

- US citizen or permanent resident
- Strong academic record; GPA 3.0-4.0
- Incoming senior, or rising junior with a background in Chemistry
- Students from underrepresented groups (women, NSF-defined underrepresented minorities in sciences) and students from academic institutions with limited research opportunities, including community colleges, are especially encouraged to apply
